Add Stripe to ePages

To get started you need to go to Settings menu >> Payments.

In the drop down list select Stripe and save.

Once that is completed click on the new Stripe payment method – “Complete it”. This will open the payment method settings.

Connecting to Stripe

Once in the settings page the first step is to Connect to Stripe so click on the link in the Settings page.

Payment methods - Debit and Credit (Visa, MasterCard, American Express)

General Settings Customer groups

This is how you integrate credit card payments into your shop using Stripe:

1. Register with Stripe or log in with your user data. [Connect to Stripe](#)  [click here](#)

Status

✖ No connection to Stripe

Payment method: Debit and Credit (Visa, MasterCard, American Express)

Create further payment methods with Stripe. Your access data will be transferred.
Additional payment methods

[Save](#)

There are two options once you want to connect to Stripe.

Existing Stripe Account

Click on the Sign in link at the top of the page.

https://connect.stripe.com/oauth/authorize?response_type=code&client_id=ca_82tC604gkdjFguERIDY

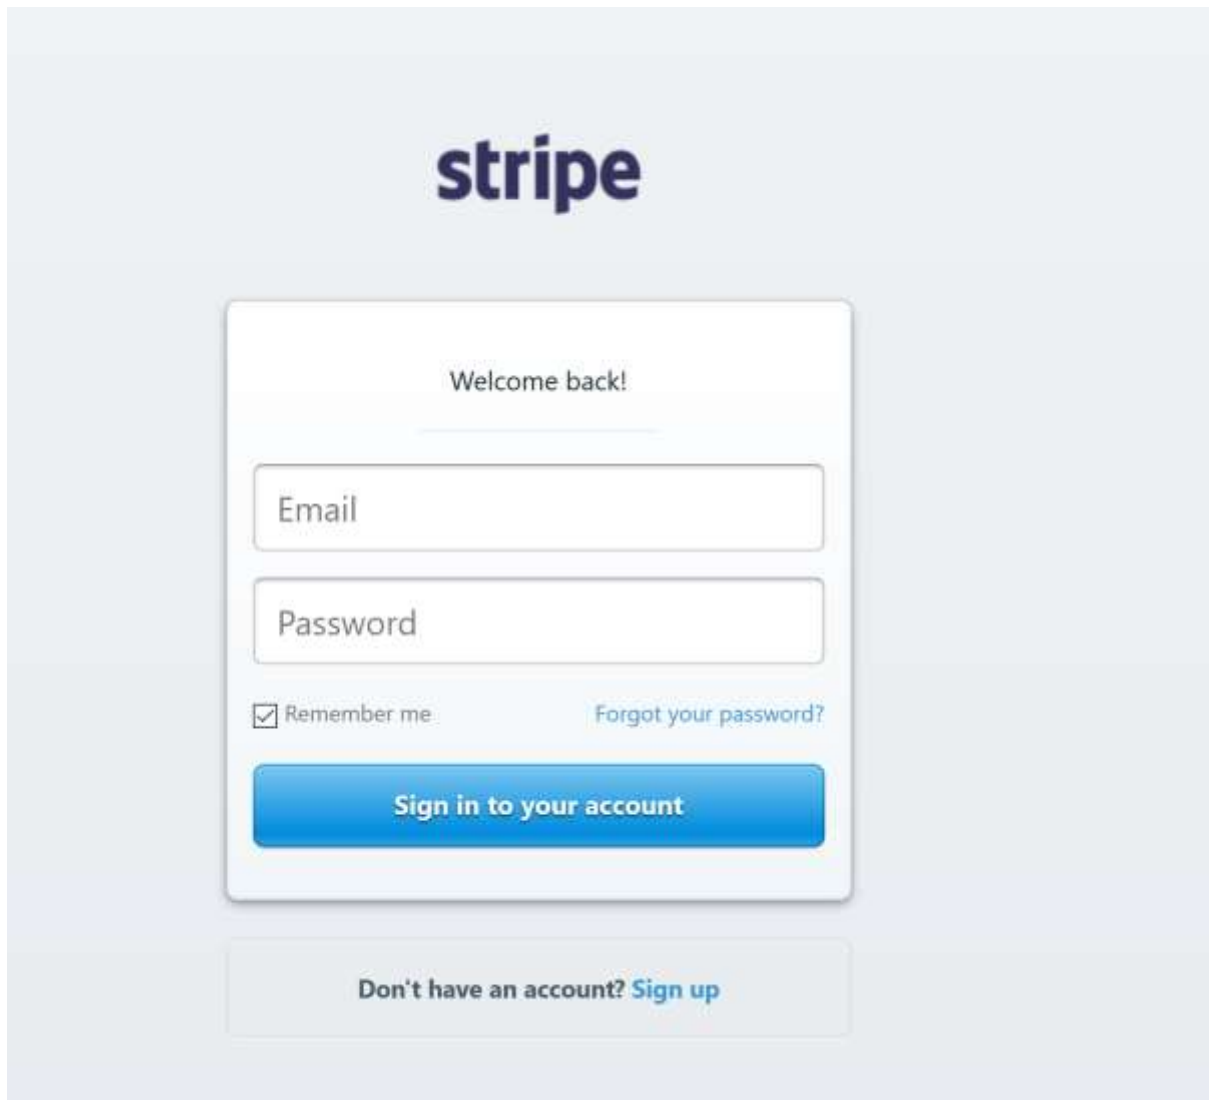

stripe

Already have a Stripe account? [Sign in](#) 

ePages would like you to start accepting payments with Stripe.
Take a minute to answer a few questions and then you'll be ready to go. ePages will have access to your data, and can create payments and customers on your behalf.

This will redirect you to the Stripe log in page and once logged in you can authorise the website to connect to Stripe. You will then be diverted back to the website to complete any other settings.

Making Stripe Live

Once you have completed the setup of your Stripe account then you need to make the payment method visible to enable your customers to pay by Stripe.

Go to the General tab in the Stripe payments method and change the visibility to YES and then SAVE.

We recommend that you test a live transaction using your credit card and then check that funds are received in to the correct bank account.

Payment methods - Debit and Credit (Visa, MasterCard, American Express)

New Stripe Account

You can also complete the registration form for Stripe if you do not have a Stripe account. Please note that completion of the setup is dependent on being accepted as a Stripe merchant.

You will need to complete the entire form and then click on the button at the bottom “Authorise Access to this Account”.

The screenshot shows the Stripe account application form. It is titled "Account application" and includes a link to "Learn more". The form is divided into two main sections: "Where are you based?" and "Your product".

Account application
We need to learn more about you and your business before you can process payments on Stripe. [Learn more](#) →

Where are you based?

You'll be taken back to ePages (cloudshops.com.au) right away.

By creating your account, you agree to our [Services Agreement](#) and [Connected Account Agreement](#).

Stripe Account Connected:

Once authorisation is granted you will be returned to the website and you can then select additional payment methods.

Here's how to work with Stripe:

1. Create a new payment method for each type of credit card that you want to offer.
2. Set these payment methods to visible on the "General" tab.

Status

✔ Connection to Stripe established. [Reconnect with Stripe](#)

Payment method: Debit and Credit (Visa, MasterCard, America

+ Create further payment methods with Stripe. Your access data will be transferred.
