Setting up MasterPass in your online store

eCorner have recently released integration to MasterCard MasterPass. You can find more information regarding MasterPass at www.ecorner.com.au/MasterPass-Offer.

The following guide will assist you to enable MasterPass in your online store.

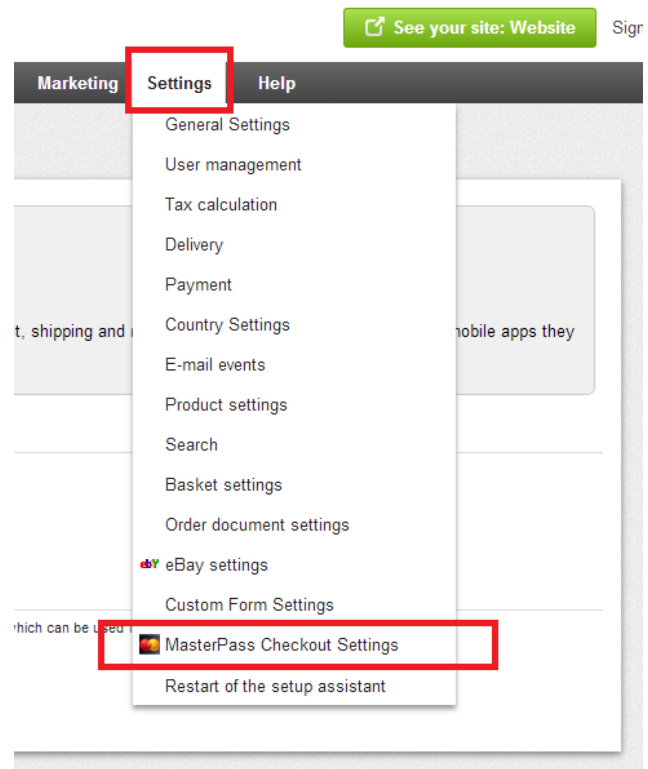

Before enabling MasterPass you must have been on-boarded as a MasterPass merchant by eCorner. You can request to be setup as a MasterPass merchant at www.ecorner.com.au/Masterpass.

Once you have been approved as a merchant you will receive an email from eCorner that contains your unique 34 alpha-numeric Checkout Identifier. This is required to enable MasterPass for your online store.

MasterPass Settings

The first step is to open the MasterPass settings.

Go to **Setting menu >> MasterPass Checkout Settings**

Adding the Checkout Identifier

1. Enables the MasterPass system to the production MasterPass environment
2. Enter your 34 character unique Checkout Identifier
3. Enable your Payment Gateway Provider

(NOTE: Right now this is just eWAY but additional gateways will be added soon.)

4. SAVE your setting.

The process has now been completed and MasterPass has been enabled.

MasterPass in the Checkout Process

Once the MasterPass settings have been completed you will see new buttons in the checkout steps and mini-basket.

Basket

Almost there you just need to check the items in the basket are what you want and then continue to check out.

After your customer clicks on a MasterPass button they will be sent to MasterPass to authorise their wallet and select the credit card that they want to use.

The full contents of the basket are viewable at MasterPass by clicking on the basket information.

Once the customer selects their credit card they are automatically returned to the online store to continue the checkout process.

The Credit Card information will be automatically populated in the correct step in the checkout. The full card number will not be visible.
