Create new tabs in Product Detail View

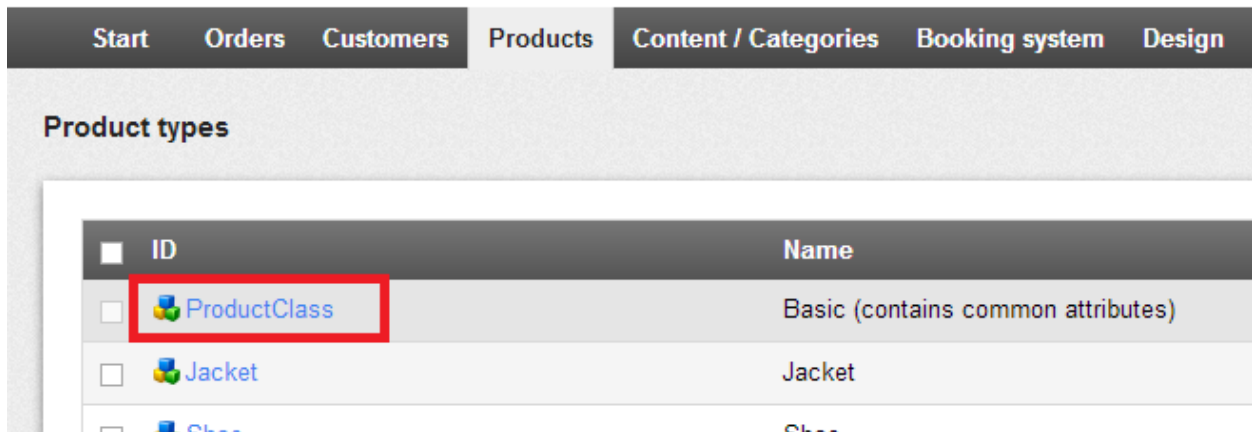

You can create additional tabs next to product description by adding new attributes to the Product Type.

Go to **Products menu >> Product types**

This will open the Product Types selection.

Click on ProductClass as this will allow you to add a tab to all products. If you have multiple Product Types then you can select which you want to add the tabs.

Next you will see the ProductClass Product Type and multiple tabs you need to click on the Attributes tab and then add a new attribute.

1. Enter an ID there must be no spaces this is seen internally
2. Enter a name – this will appear as the name of the tab so make it descriptive
3. Select Text or Language-dependent text (only required if you use more than one language)
4. Click on Save

Product types + Basic

General **Attributes** Layout Customization

| ID | Name | Type |
|--|-------------------------------|----------|
| <input type="checkbox"/> Preview | Preview | File |
| <input type="checkbox"/> Preview_video | Preview video | Text |
| <input type="checkbox"/> Manufacturer2 | Manufacturer2 | Text |
| <input type="checkbox"/> Manufacturerprice | Manufacturer price | Currency |
| <input type="checkbox"/> tab1 | Enter name for new tab | Text |

+ Enter ID no spaced Enter name for new tab

Save Delete **Click on save when done**

Note: A dropdown menu is open showing various attribute types, with 'Text' selected. Red boxes highlight the dropdown and the 'Text' option.

Next you need to open the new Attribute by clicking on the ID.

General **Attributes** Layout Customization

| ID | Name | Type |
|--|-------------------------------|----------|
| <input type="checkbox"/> Preview | Preview | File |
| <input type="checkbox"/> Preview_video | Preview video | Text |
| <input type="checkbox"/> Manufacturer2 | Manufacturer2 | Text |
| <input type="checkbox"/> Manufacturerprice | Manufacturer price | Currency |
| <input type="checkbox"/> tab1 | Enter name for new tab | Text |

+ [] [] []

Saved Delete

Note: A red box highlights the 'tab1' ID, and a red arrow points to it with the text 'Click on the ID to open it'.

You will now see a number of radio buttons as in the image below make sure that all are set to YES.

Then click on save.

You have now created the new tab.

General

ID

Type

Visible Yes No ⓘ

Support HTML formatting Yes No

Display on own tab Yes No ⓘ

Make sure that all the radio buttons are set to YES then save

Name English

Tool tip text ⓘ English

Next you need to go to Products menu >> Products and open a product from the list.

In the product General tab scroll to the end to the area called Attributes and there you will see the input area to add content to the new tab.

Add the content that you want to show and SAVE.

You will need to click on the Update Cache button after saving the changes.
